PERSONAL

Dear Bob:

Betty Lund left me a memo which served to goose me into this letter concerning the problems of Mr. Leland Big Goose. I hope you are able to goose this gent into writing the letter which Mrs. Lund said she goosed you about. If you do, we will take a gander at it.

Meanwhile, to you and Sue a great big happy New Year from Loretta and me.

Cordially,

Carter Bradley

MEMORANDUM

12/27/63

Carter -

Bob McCandless called today re visit of Mr. Leland Big Goose, Route 4, Ponca City, to Bob Jr. re problem of Poncas in getting work. About 15 of them have had retraining at Okmulgee but still unemployed. Wonder about possibilities of work on Kaw or other federally sponsored project to alleviate unemployment in his tribe.

Asked Bob to try to get problem reduced to letter with further info re numbers involved, skills if any, where they had made application etc. May have problem in doing this, he says, and was making phone call for benefit of visitors who had traveled all the way from Ponca.

Unless or until we hear from someone else directly, Bob will be our contact in this matter.
