Dear Dr. McBrayer:

Thank you very much for your note of March 6. Someone else had sent us a copy of your memorandum to all service unit directors and all branch chiefs relaying our commendations on the report on the Indian Health Division's work in Oklahoma.

We had an opportunity to meet Hugh Morgan last week after we had written you. He was in Washington on business and came by our office. He seemed to appreciate the fact we had read his report with interest.

Our very best wishes.

Sincerely,

Honorable Carl Albert  
House of Representatives  
Washington, D. C.

Dear Mr. Albert:

Thank you for your letter of February 28, 1967, commending us for the report on the Division of Indian Health's work in Oklahoma in Hugh Morgan's article in the February 23 issue of "The Oklahoma Journal." It was a pleasure to work with Mr. Morgan in the preparation of this article, and I believe he did an excellent job.

One small error crept into the final product. About half way through the article it reads, "In 1965, 1,192 babies were delivered by a physician in a hospital." The figure should have been 2,414. Otherwise, it is quite factual.

Again, thank you for your kind words and interest in our program. I shall indeed convey your congratulations and commendation to the entire staff.

Sincerely yours,

Benjamin E. McBrayer, M. D.
