SCHWABE - COLL

COMMITTEE:  
AGRICULTURE

Congress of the United States  
House of Representatives  
Washington, D. C.

October 16, 1945

Hon. George Schwabe  
House Office Building  
Washington, D.C.

Dear George:

Enclosed is a letter from a constituent of  
Hon. J. Edgar Chenoweth's, but he writes me, and  
probably wrote Edgar.

I answered the letter and told him I would  
cooperate with you in every way possible to bring  
about the permanency of the 15% depletion rate in  
Fluorspar mines.

If there is anything I can do to help you,  
please call on me as I feel this rate is justified.

Very truly yours,

*William*

EDGAR J. MARSTON

COLORADO SPRINGS, COLORADO

October 12, 1945

Honorable William S. Hill,  
Congressional Office Bldg.,  
Washington, D.C.

Dear Mr. Hill:

Re- House Bill H.R. 3693

Hon. Geo. B. Schwabe, Congressman, Okla.

The above bill is essential to the future mining of Fluorspar, and we shall appreciate your every effort in helping to secure a permanent 15 % depletion rate such as is given lead, zinc and copper.

Depletion of deposits due to war necessities has increased prospecting cost to such an extent that to keep Fluorspar in its present position, it is essential that this rate be made permanent.

The Fluorspar industry urges that you give this your most hearty support.

Respectfully,

Edgar J. Marston
