Hon. Geo. Schwabe
House Office Building
Washington, D. C.

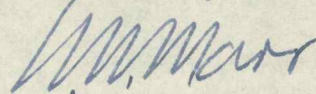

Dear Mr. Schwabe:

My attention has been called to H.R.2232 bill known as "Fair Employment Practice Act". We wish to take this opportunity to register our protest against the passage of any such act. It is unnecessary and will only still further burden and hamper business and lead to many disputes and controversies. It would seem that if business is to continue and is expected to help provide sixty million jobs there must be some incentive for business. We already have too many laws. All laws are restrictions and many of them are good and necessary, but we should not expect laws to cure every ill on earth.

May we kindly ask your support and influence against any such law.

WNM:b

Yours truly,

W. N. Marr
