 Pawnee, Oklahoma.

Dear Mr. Roberts:

Yours of March 27 is received. This is a very busy time of year in our office. The legislature is in session. We have every moment crowded with responsible work. I could give you no worthwhile opinion upon the rights or the equities of the Pawnee Nation under the treaty of 1833 without a good deal of time to carefully look up the record. This I might do a month or two from now, but at present it is impossible.

I had a letter from Knife Chief stating that some of the Old Pawnee Warriors were planning to come to Nebraska. I wrote back urging that they come while the legislature is in session which will be three or four weeks more.

Very sincerely,

A. E. Sheldon

Dear Mr. Roberts:

Your letter of March 27 is received. This is a very busy time of year in my office. The legislative session is in session. I have every moment occupied with legislative work. I could give you no worthwhile opinion upon the merits of the law as passed under the theory of 1933 without a good deal of time to carefully look up the record. This I might do in a month or two from now, but at present it is impossible.

I had a letter from Mr. Latta dated March 27 stating that some of the old Kansas statutes were planned to come to Nebraska. While I am glad that they come while the legislature is in session which will be some of four weeks more.

Very sincerely,
