My dear Mrs. Myrick:

I am just in receipt of yours of the 7th instant and note that you think Representative Stigler has introduced two measures along the lines referred to in your earlier letter to him. If he has done so I am not aware of it.

I think you must be mistaken, and I do not know just what you have in mind. I wrote you a few days ago on this subject, and there is nothing new bearing upon it at this time so far as I know.

Sincerely yours,

George B. Schwabe, M. C.

Congressman George B. Swabe
House of Representatives
Washington, D.C.

Dear Sir:

The favor of Congressman Stigler was received and greatly appreciated of the interest he has taken in the welfare of the introduction of the two measures in which were mailed to him for approval and introduced it. This committee certainly will appreciate you pressing every effort to get these two bills and measures to become a law at the earliest date possible. I am in receipt of a letter from Congressman Stigler. When you have summarized the bill appointed with and placed of record, please send to me several copies that I might send to various members of the committee that we may help you in every possible way to push these measures through the Mississippi Chotaw bill and its amendment and the Shawnee bill.

Yours very truly,

Chas. *Mrs. M. D. Myrick*
