Hon. Geo. B. Schwabe, Member of Congress
Washington, D.C.

My dear George:

In the Press this morning was an article to the effect that you proposed to introduce a bill in Congress to create a Commission to investigate individual Indians with reference to granting them a certificate of competency. I think that your idea is along the proper lines. If you have a copy of this proposed bill, or can give me any information with reference thereto, I would appreciate it.

Very sincerely yours,

Frank Files
