Dear Paul:

I am just in receipt of your letter of the 5th instant and appreciate your continued interest in the welfare of the American people. I have never known one who works more diligently than you to attempt to find a way out of our chaos. I know you are sincere and intelligent, and that is the reason I listen to your theories whether I agree with them or not.

The situation is becoming most acute; and as I have frequently said, I think it will be worse before it is better. It will never be better until this New Deal crowd is replaced by those who have the interests of the public at heart to the extent that they will not appease the racketeers and will be willing to give both industry and labor a fair deal.

With all good wishes, I am

Sincerely yours,

George B. Schwabe, M.C.

TULSA COUNTY CHAPTER NO. 1 OF OKLAHOMA

OFFICE OF THE SECRETARY

May 5, 1946

The Honorable George B. Schwabe,
U. S. Congressman from Oklahoma

Dear Congressman Schwabe:

The emergency of the coal strike and other labor problems that are now paralyzing industry, should convince us that we need another approach to the industrial relations problems.

I agree with you and Senator Moore in all you say against the New Deal. But I disagree with you that our problems would be solved if we just got rid of the New Deal bureaus.

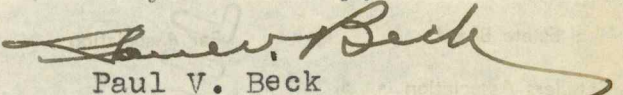

The American people are looking to our Congress for constructive leadership. That must come from the Republican Party. Or there must be organized a new party.

I am getting more and more people to agree with my general suggestion that business must set up its own controls if it will get rid of the political controls.

We need a Constitution for Business.

I should like to hear from you.

Very sincerely,

Paul V. Beck
