 Congressman George Schwabe,
 Washington, D.C.

Thank you for the splendid letter you recently wrote me.

Honorable Sir: I want you to know that you have many friends over this nation. I hope you will still fight to kill the evil acts of many of the RED representative s and senators who nearly always foster acts to favor John Lewis (who "has congress scared red of him") and the other unioneers.

Congress CAN enact laws to curb these strikers and other reds IF they were not such cowards. We also need a president who is not afraid of John Lewis and the other constitution destroyer\$ reds. We wish congress would cast out the O.P.A. and 2 million other PUBLIC teat suckers (tax eaters) Take the shackles all off of business and let the people run their business and farms AS they did before Roosevelt and his gang got in there and tried to kill all freedom of private and public business.

This country is going the way of, and being run as Rome was un-governed up to and after the time it fell in 476.

Give my dear^{to} love dear Brothers(?) "Dear Alban" (Cayenne) Pepper and Wagner and our sacred and beloved supreme court ,who permit a bunch of reds and goons (unioneers) to beat up farmers and truckers who are taking their products to market. Congressman Mike Monroney is our nephew, but he has fallen from grace in many of his acts. The O.P.A. delenda est. Very truly,

H. M. Sanger
