Labor May 23, 1946 Union Machine Company Bartlesville, Oklahoma Attention: H. G. Durnell, Mgr. Gentlemen: I have your letter of May 20th, and wish to thank you for your pointed suggestions and your assistance to my thinking. Fortunately, we see eye-to-eye. I wish that it were possible for me to be able to control the situation that so critically affects our people today. The trouble is that a few New Deal labor racketeers seem to have the New Deal Administration convinced that they can deliver enough votes to perpetuate this crowd in office, and they get by with almost anything. You must remember that the New Deal still has a substantial majority in both branches of Congress which I thoroughly believe they will lose next November, at least in the House. This is the only possible salvation of our country. We who see things otherwise cannot hope to get any legislation passed. In the meantime, I sincerely trust that public indignation and public sentiment will make itself so felt, that those who are cowardly enough to stay with un-American principles and ideals and disregard the interests of the public, will be overholded, and give us some relief until we can change the political complexion of the membership of Congress. With all good wishes, I am Sincerely yours, George B. Schwabe, M.C.

MACHINISTS-FOUNDERS-BLACKSMITHS

BARTLESVILLE, OKLAHOMA,

May 20, 1946.

Honorable Geo. Schwabe, Washington, D.C.

Honorable Sir;

We are manufacturers of Oil Well Pumping machinery and are purchasers of Car loads of Foundry Coke and Steel products.

We are opposed to the present demands of John L. Louis, and Congress should enact legislation to prevent any special privileges to any groop, be they employer or employee.

We refer to unfair strikes and forced welfare funds to be disbursed by the party or parties named as beneficiaries; such benefits may be right but should be controlled by non-participents.

Yours truly,

Union Machine Company.

G. Durnell Mgr.
