COLL

Labor - Strikes

February 4, 1946

Mrs. Clara Banther
3240 East 71st Street
Tulsa 15, Oklahoma

My dear Mrs. Banther:

I am pleased to acknowledge receipt of your letter of January 24th in which you so clearly express your views. I want to say that your views and mine are identical. It certainly is refreshing to hear from constituents who voluntarily give me the benefit of their thinking in the oldfashioned American way, and who are not moved by all this New Deal propaganda that has been broadcast and has so perverted the minds of our people and poisoned their thinking.

There is only one purpose this bunch has in mind, and that is to lead us down the road to some form of totalitarianism. We told the world we were fighting this war to get rid of the very things the New Deal crowd is trying to foist upon us just as was done in Germany.

Again thanking you for your letter, I beg to remain

Sincerely yours,

George B. Schwabe, M.C.

Rep. Schawbe.

I wonder if Congress is not going to do any-thing to stop these strikes, that people like me are so fed up with, sick & disgusted with the whole mess - why don't Congress out-law the laws made under Pres. Roosevelt's orders, Make new laws that are not solely for Labor.

Racketeers, Is it because people like me do not holler loud and long enough, while Labor Racketeers sit right there with demands

1

and threats?

I wonder who is President
of these United States,
Truman or Phil Murray?
Every time Pres- Truman
says a word - 'Tis the voice
of Pres. Truman and the
words of Philip Murray -
who are you? Just the
wife of a working man.
And he has been on shift
work and with same
Corporation for 28 years.
So we know all about
the working Mens problem
And do not believe in
all this Labor Racket.

3

They just want Control and
destroy Our America.

Another thing, I hope
that Congress will not
extend the O. P. A. - Lets do
away with all that bossy
beanocrat stuff and
get back to the American way.
Sincerely

Mrs. Clara Banther
