

SCHWABE CO.

March 9, 1945

Honorable George B. Schwabe  
House of Representatives  
Washington, D. C.

Dear Sir:

I have heard so much about this work or draft bill and as my blood is just boiling, I thought I would let off a little steam. I am one of the many war workers and I get tired of hearing about this not enough production. If the men were turned loose where they could work instead of held up so production would be hindered, we would all have a better production and better morale too.

Here at Tulsa in the war plants they have too many men and no one to let us go on and turn out these planes. The main fellows take a plane ready to fly, get a bunch on it just to tear it back up so the mechanics will have something to do to them the next day. They have capable men to take care, but they want production cut so they can hire and make more money.

I think something should be done. Everytime someone is coming around they hear it and tell everyone to act busy. So the best way to find out for yourself is to find someone to work two or three months ~~our time~~ to see how much fraud there is and I feel it's in all government owned plants.

I have two brothers in the Army and I'm as anxious to have this thing over as you, and I thought it my duty to write to you as my representative to let you know and there are millions like me over there. I won't sign my name for reasons, but I'm glad to help, so I will sign just

X

P. S. You understand these plants in Tulsa are on a cost-plus basis. I think that is detrimental to the war effort.

This is not my viewpoint alone in this letter, it is of millions who work in these war plants.

Dear Sir:

I have heard so much about this work or draft bill & as my blood is just boiling I thought I would let off a little steam. I am one of the many war workers and I get tired of hearing about this not enough production. If the men were turned loose where they could work instead of held up so production would be hindered we would all have a better production and better morale to. Here at Incon.

way to find out for  
yourself is to find someone  
to work two or three months  
are time to see how much  
fraud there is and I feel  
its in all government owned  
plants.

I have two brothers in the  
army and Im as anxious  
to have this thing over as  
you and I thought it my  
duty to write to you as my  
representative to let you  
know and there are millions  
like me over there. I want  
sign my name for reasons  
but Im glad to help so Ill  
sign just

X.  
Love peace

in the war plants they have too many men and no one to let us go on and turn out these planes. The main fellows take a plane ready to fly get a lunch on it just to tear it back up so the mechanics will have something to do to them the next day. They have capable men to take care but they want production cut so they can hire & make more money.

I think something should be done. Everytime someone is coming around they hear it and tell everyone to act busy. So the best

P.S. You understand these plants in Tulsa are on a cost-plus basis. I think that is detrimental to the war effort.

This is not my view point alone in this letter its millions who work in these war plants.

Sincerely -

A Republican.
