Mr. Charles R. Bostick
City Attorney
Tulsa, Oklahoma

Dear Charlie:

I am pleased to acknowledge receipt of yours of the 8th instant.

I am sure that I shall not bet any money on what this New Deal controlled Congress and Administration will do or will not do. They might pass the Wagoner "Do Nothing" Bill, as you call it, or any other legislation; and the crazier such measures are the more likely they are to be passed by this bunch.

I recently had my opportunity to express my mind on this situation in an insertion in the Congressional Record a week or so ago. I am still fighting the New Deal as vigorously as ever, and my vote on the different measures will show that I am still voting against New Deal policies, as I know you expected me to do. I shall continue to do so as long as I am here.

With all good wishes, I am

Sincerely yours,

George B. Schwabe, M.C.

Honorable George B. Schwabe
House of Representatives
Washington, D. C.

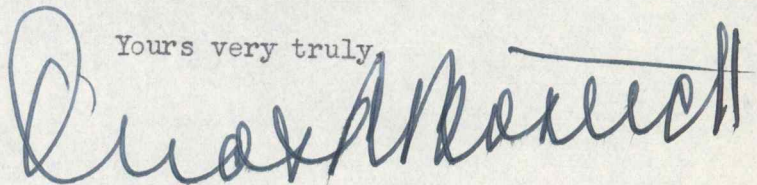

Dear George:

Will the American people ever wake up and have any sense?
Do you think Congress will pass this "Wagoner Do Nothing Bill"?

As you know, the Douglas plant in Tulsa is drastically reducing its personnel, and I learned this morning that some of these fools really think that the Wagoner Act is already the law. Furthermore, they will tell you that frankly they can do better by doing nothing than by taking a job. In fact, when President Truman came out and advocated this \$25.00 per week for six months or longer for the so called interim between losing of jobs in war plants and getting others, I was disappointed, although I had had high hopes that at least we had a President who had some idea of the economic situation, and would put a brake on these starry eyed schemers who have just about wrecked our country. One thing I do know, and that is unless a halt is called, and called at once, all of these bonds we are buying will be worthless - then it will be too late.

Do you think that there will be any slow down in this senseless extravagance, and the utter foolishness of the United States shouldering the duties and responsibilities of England, France and everybody else, until we wake up some day and find we are all bankrupt.

Yours very truly,
