Attention: Mrs. Hazel Brinkley

Dear Friend:

I have your letter of May 26th, enclosing a copy of your letter addressed to President Truman, both of which I have read with interest.

I wish it were possible to work out some scheme along the lines you suggest. If what the President seeks to do had been the proper thing, he should have done it long ago before the labor union bosses disrupted our whole economic set-up. Of course there is one thing we must watch carefully, and that is the danger of having our industry taken over and controlled by the government, which is what has happened in Russia and in other communist or totalitarian countries.

Assuring you of my appreciation of your interest and with all good wishes, I am

Sincerely yours,

George B. Schwabe, M.C.

Mr. George Schwabe,
Washington, D.C.

Dear Mr. Schwabe;--

Enclosed is a copy that I sent to President Truman.

It will work and the only thing that can be done from every angle to keep us out of ^mComunism---the Russians have us if something is not done. Why are they so arrogant at the Peace Conferences if they are not privately laughing up their sleeves at us..

Yours resp.,

Hazel Brinkley

Hazel Brinkley.

It makes me feel sorry for our American
representatives abroad--
The whole trouble the Russians have
no respect for the way we handle
things at home.
How long would Stalin have tolerated
a John D. Lewis.
You know a traitor is a traitor and
firing squads have been used on them
and would have been done in Russia.
Diplomacy does not impress rugged people.
They think we're softies.

President Harry S. Truman,
Washington, D.C.

Honorable Mr. President;

To every honest American, we know that the Labor situation is going to kill our industries and the country. Whether you know it or not the country is seething and to me it is only the fact we are hesitating to make one big move in open rebellion, is in the hope of settlement and not appeasement. The American people are going to uprising--no mistaking that and blood will be shed

Here is a plan that is workable and a thing that can be done.

The Government is going to have to take over--sooner or later.
For every union man on any job--put as understudy for that man an American soldier
We are paying men to go to college--put them in on something constructive at once instead ---

It is as simple as that and workable from every angle.

John L. Lewis on down with an aid that is a government man--a U.S. Soldier--
and I mean one of American birth--certificate--one whose parents were and are one hundred per cent American.

Keep them on the job at all time--with these men--If the unions are so hundred per cent for the right side--they should not complain if a soldier was his aid.

Then in the next show down the U.S. can take over without work stoppages.

Our railroads can move on.

This CIO group who are using force to bring every truck driver and business of all descriptions in a union (with them with a government man in on all their decisions--how far do you think this private coercion would go?

These soldiers of our are walking the streets now for jobs and home--give them a break and that is the WAY to do it.

A SIMPLE SOLUTION---A U.S. Soldier as aid to every Union man--big or low.

Yours resp.,

Hazel Brinkley
