Dear Judge:

I am pleased to acknowledge receipt of your letter of the 20th instant expressing yourself freely with reference to the English situation and England's new regime's effort to get us to make further contributions. I agree with you one hundred per cent in your reasoning and conclusions, and you may rest assured that I shall never vote for the program now being formulated for the extension of the New Deal under President Truman.

I have not yet read the article referred to in last week's edition of Collier's; but I shall attempt to get a copy of the magazine and read it. I appreciate your calling this to my attention.

It is nice to have heard from you, and I trust you will let me hear from you whenever you have further valuable suggestions to offer.

With best wishes, I am

Sincerely yours,

George B. Schwabe, M.C.

Dear George:

I trust that before Congress acts with reference to question of charging off England's debts and continuing to finance her Government and feed her people, every member will read Harold Laski's article in last week's Collier's on the Labor Party's plans and aspirations.

This is the country whose wars the United States has twice won with its money, materials and men; who now expect us to forget it all and continue to finance their socialist government and feed its people.

A lot of intestinal fortitude it takes for her to expect a Government built and maintained by private enterprise to continue to feed her people and in the meantime finance her socialistic experiments.

Very truly,

W. C. Franklin
