Loan to England

Dear Friend:

I am just in receipt of your letter of the 26th expressing your views with reference to our Government making a loan to England.

I heartily agree with your sentiments, and want to thank you for your letter on the subject.

It might be of interest to you to know that the people of my District seem to be about ten to one against lending England and other foreign countries the money that we borrow from our own citizens. I am particularly interested and inspired by your suggestion that if there is anyone in this country who wants to lend to England, let him do it out of his own private funds. That is an argument I have been using for some time, and it seems to have had a wholesome effect on the people who have been swayed by this New Deal crowd here, and the propaganda they have put out in favor of this loan to England.

With all good wishes, I am

Sincerely yours,

George B. Schwabe, M.C.

Honorable Schwabe,
Oklahoma Congressman,
Washington, D. C.

Dear Sir,

Am writing you in regards to the loan to
England.

Am opposed to this measure because I think
the U. S. Government should not be loaning money.

I think if enough pwope wants England to have
the money they should loan it themselves through
private enterprise and take their own chances of
getting it back.

Very truly yours,

Walter Longstreet
