SCHWABE COLL

Representative George B Schwab
House Office Building
Washington DC

Dear Sir:

You know how much the merchant seamen are interested in the speedy passage of HR 2346, known to us as the Seamen's Bill of Rights. All of us and all our friends and families have talked of it frequently and we think most of the folks at home are interested in seeing this bill passed so that we can manage to weather the storm of readjustment to life ashore when we no longer have to ship - that will be when the Japs are licked and all our boys have been carried home again by our merchant marine.

Please use your influence in our

behalf and do what you can to enact this
bill into law.

Sincerely yours

Frank Connors
