Dear Luther:

I have your letter of the 23rd instant relative to the Merchant Marine boys and stressing two points.

I am very familiar with the controversy on these subjects and assure you that whenever the matter is before Congress, I shall give the matter my serious consideration. I don't know just when this will be reported out by the Committee to which the bills were referred. It seems that they haven't made very rapid progress and I think it is somewhat doubtful if it reaches the House before adjournment.

With all good wishes, I am

Your friend,

Dear George:

There are two points I would like for you to consider if you please.

One is - That the Merchant Marine boys who made contributions to this War should have some part in the G. I. Bill of Rights.

The second is - That with reference to the President's bill for a year's military training that the boys who are now in the Cadet School of the Merchant Marines should be given full credit because the training is analogous to Annapolis and the scholastic and physical requirements are rigorous.

This is only fair and I would appreciate your giving this matter your serious thought. I am

Sincerely your friend,

LUTHER P. LANE
