Hon. Geo. Schwabe, M.C.
House Office Bldg.,
Washington,
D.C.

Dear Friend:

Occasionally list a few of the bills which come up, and ask the folks about them. A lot of favorable comment has come out of your visit around thru' the fowns.

The only thing I can recommend you doing is offering up a prayer for the sake of Humanity. I believe the Human race has sunk so low that it's going to be hard for the world to ever be a decent place to live in, even the animals are afraid of us.

As for me and politics here's the low down. Until and Unless the Democratic party gets back to Jeffersonian democracy the whole Republican ticket can have my vote. I'm so sick and tired of New Dealism that our country would be better off if we were represented by the peons of Mexico.

When Dewey said "get rid of the little minds, rattling around in big places" he said a mouth full, and when one of the commentators who writes for the Tribune said, "Little minds dabbling around with Historical problems" he also said a mouthful, but why tell you all of this?

Barney Barouch had it right in his recent article in Life, and a lot of other folks have the same idea. Soon we have no earning power, national debts can't be paid off, interest can't be met, and then more printing press money, Scarcity of articles now are alarming. Why loan money when we can't meet our own problems. Venture capital is freezing up, those who have are running away from those of us who have not. Government decree can't smoke them out. Unpopular laws are so much hooey when there are no emergencies to back them up. Truman can Bureaucrat all he wants to, but if he keeps on we'll have just as bad a situation on the Republican side, he's making votes every day. We win a war for Freedom and lose our own. What a Hell of a state of affairs.

Keep on punching, writing little notes to your constituents and out of the way places, it's good stuff.

Best of luck.

P.S. May have to ask you for help on my Boys insurance if I can't get it straighten out pretty soon. DCM.
